

Ainan International Auto Parts System

Mohammed Jamir Uddin

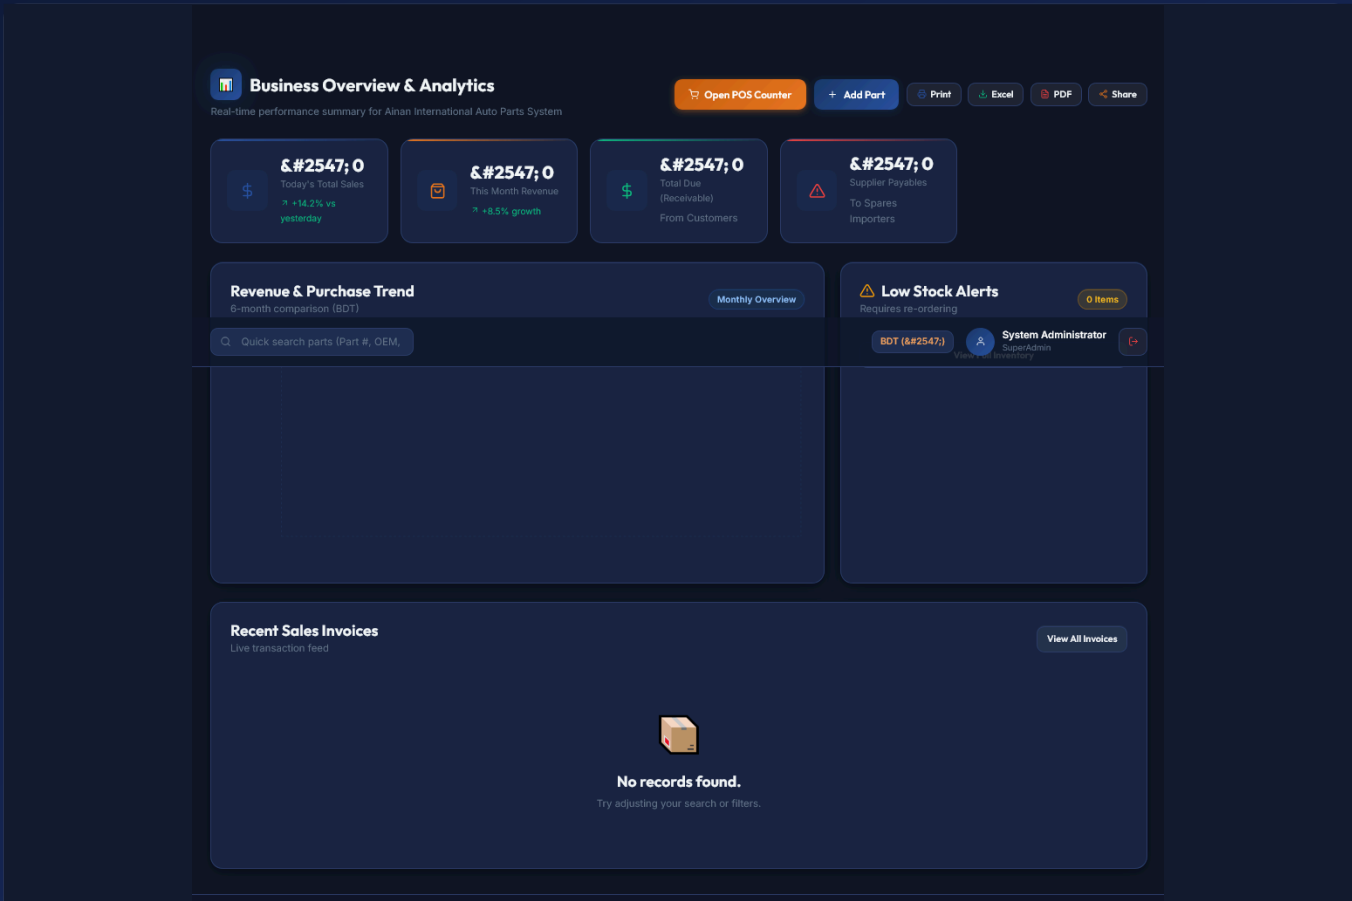

Full-Stack Software Developer
.NET Core & React

Chattogram, Bangladesh
jamiruddindowlat@gmail.com

A complete, full-stack Point-of-Sale & ERP platform built for auto parts retailers, wholesalers and importers — inventory, sales, purchasing, multi-warehouse stock, customer & supplier ledgers, and full double-entry bookkeeping, unified in one system.

Backend: ASP.NET Core Web API (.NET 8) · Entity Framework Core · Microsoft SQL Server · JWT Authentication · BCrypt · Swagger/OpenAPI

Frontend: React 18 · Vite · React Router · Recharts · Axios · **Modules:** POS · Inventory · Sales · Purchasing · Accounting · Multi-Warehouse · Reporting

What's Inside AIAPS

AIAPS is built to run the full daily operation of an auto parts business — from a walk-in counter sale to month-end financial statements — inside a single, connected system. Every module below shares the same live inventory, customer and account data, so a sale at the POS counter instantly updates stock levels, the customer ledger and the general journal.

10+

Core Modules

Live

Real-Time POS

100%

Double-Entry Books

Multi

Warehouse Ready

01 POS Counter

Fast barcode / part-number search, live cart, discounts and instant receipt printing for walk-in customers.

02 Parts Catalog

Full catalog with OEM numbers, barcodes, brands, categories, cost & retail pricing.

03 Sales & Invoices

Invoice history with payment status, due balances, and printable/exportable documents.

04 Purchases & Stock Intake

Supplier purchase orders, intake cost tracking and automatic stock receiving.

05 Multi-Warehouse Inventory

Rack/bin-level stock tracking across multiple warehouse locations with manual adjustments.

06 Customers & Suppliers

Full ledgers with credit limits, due balances, and accounts payable/receivable.

07 Bookkeeping & Accounting

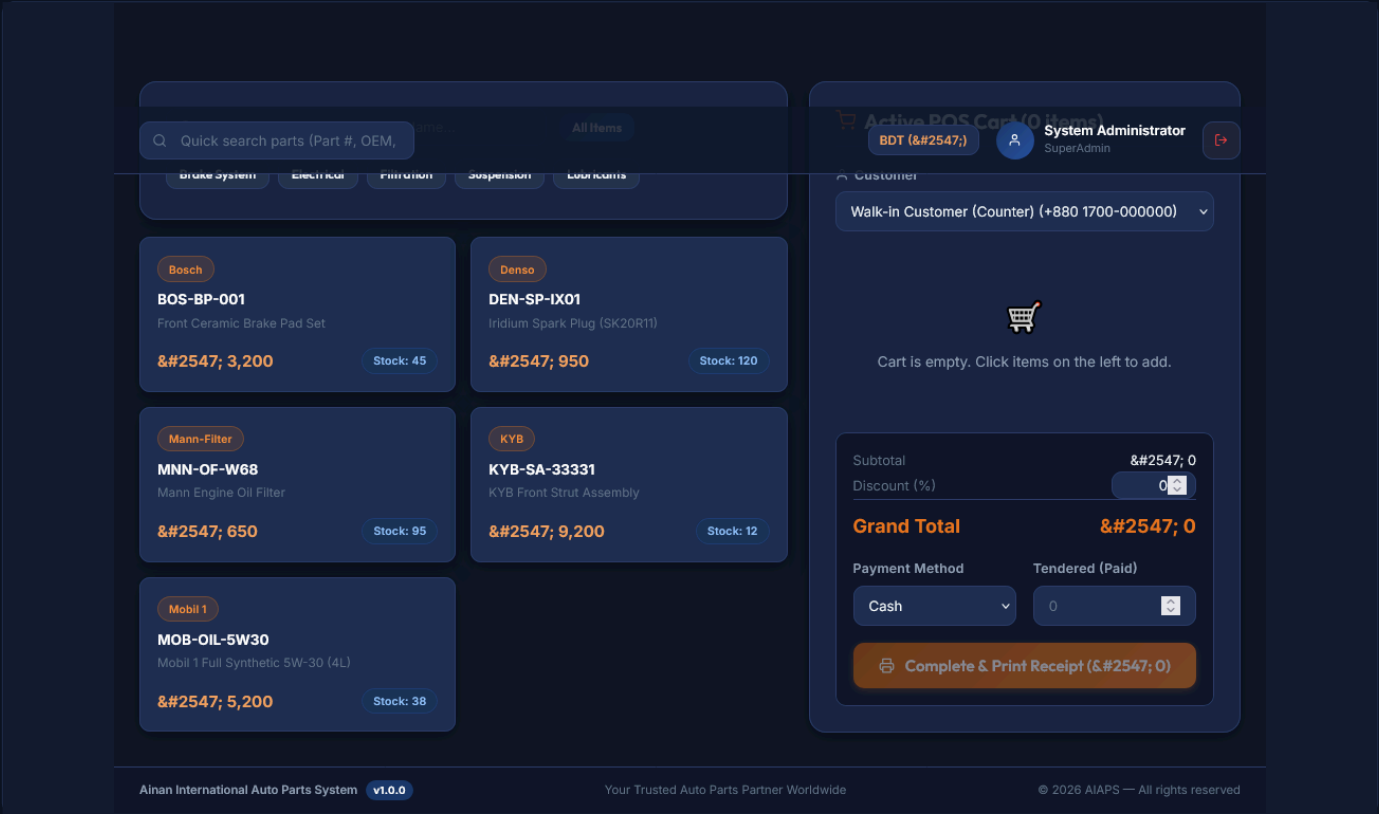

Journal vouchers, general ledger, trial balance, profit & loss and balance sheet.

08 Business Intelligence

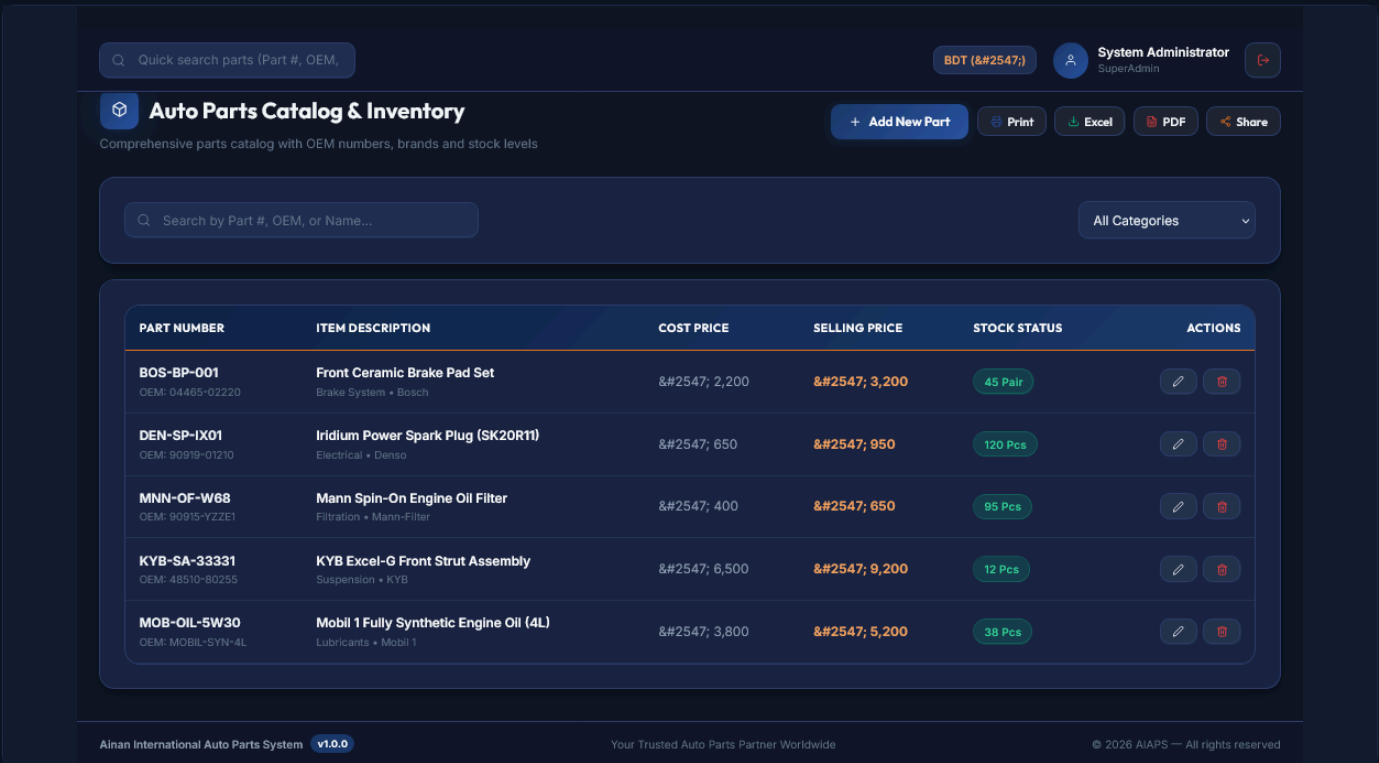

On-demand reports — aging balances, fast-moving parts, profitability — export-ready.

POS Counter & Parts Catalog

The counter screen is built for speed: staff search by part number, OEM code or name, tap a part card to add it to the cart, and complete the sale with cash, discount and change calculated automatically. Every part in the catalog carries its OEM cross-reference, brand, category and both cost and retail pricing.

Live POS counter — part search, cart, discount and payment in one screen.

Ainan International Auto Parts System Parts catalog — OEM numbers, categories, brands, stock status and pricing at a glance. Mohammed Jamir Uddin

Parts Catalog · Brands & Categories

Bookkeeping & Financial Statements

A complete double-entry accounting engine sits underneath the storefront — every sale, purchase and payment posts to the general journal automatically, and staff can also post manual journal vouchers. From there, the system rolls everything up into a general ledger, trial balance, profit & loss statement and balance sheet.

Reports, Branding & Access

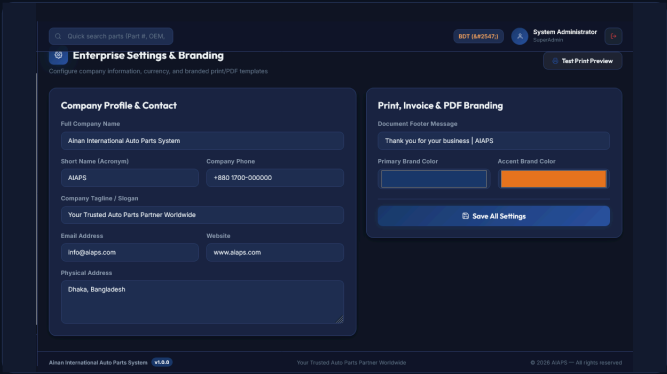

A dedicated reports center generates on-demand summaries — from aging customer balances to fast-moving parts — ready to print or export. Enterprise settings let the business brand its own invoices and documents, all behind a secure sign-in.

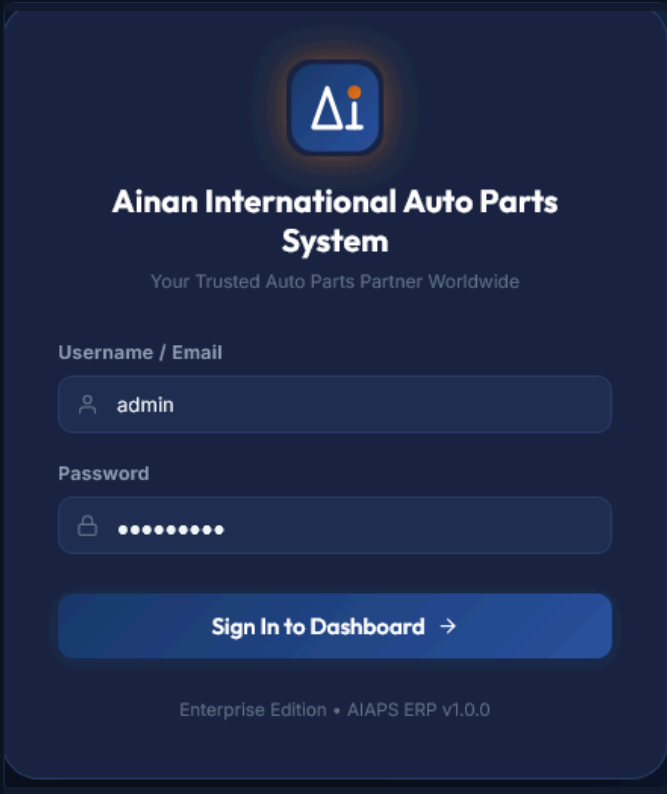

Customer outstanding balance & aging report.

Top fast-moving spare parts report.

Enterprise settings — company profile & invoice branding.

Secure sign-in screen.

Let's Build Your Next System

Available for full-stack ERP, POS & business software projects.

Ainan International Auto Parts System was built end-to-end — database design, backend API, business logic and frontend — as a demonstration of production-ready, full-stack ERP development using ASP.NET Core and React. I'm available to build similar inventory, POS, accounting or business-management systems tailored to your workflow.

Mohammed Jamir Uddin

Role: Full-Stack Software Developer (.NET Core & React)
