ENTERPRISE ERP · PROJECT SHOWCASE

Sinan International University Management System

A complete, full-stack Enterprise Resource Planning (ERP) platform for higher-education institutions — academics, admissions, examinations, human resources, accounting & finance, procurement, biometric attendance, and institutional communication, unified in a single secure system.

Backend: ASP.NET Core Web API (.NET 8) · Entity Framework Core · Microsoft SQL Server · JWT Bearer & WebAuthn/FIDO2 Biometric Auth · BCrypt · Swagger/OpenAPI

Frontend: React 18 · Vite · React Router · Recharts · React Big Calendar · jsPDF · ExcelJS · Axios

Project Overview

A production-grade, enterprise-scale ERP built end-to-end by a single full-stack developer.

The International University Management System is a full-stack Enterprise Resource Planning (ERP) solution designed to run the complete day-to-day and long-term operations of a higher-education institution. It brings academics, admissions, examinations, human resources, accounting, procurement, biometric attendance, and institutional communication together in one secure, role-aware platform.

The system is architected around seven distinct role-based portals — Admin, Director, Accountant, Receptionist, Teacher, Student, and general User — each with its own dashboard, navigation, and permission set, backed by JWT authentication and optional biometric (WebAuthn/FIDO2) login for extra security on sensitive accounts.

Every financial and academic module includes print-ready and exportable reporting (PDF and Excel), built for real institutional workflows: fee collection, payroll, double-entry accounting, exam results with automated GPA/CGPA, and audited administrative activity logs.

The entire platform — backend API, database schema, and frontend application — was designed and developed independently, end to end, as a demonstration of enterprise-level full-stack engineering capability for international freelance and employment opportunities.

Technology Stack	
Backend	ASP.NET Core Web API (.NET 8), Entity Framework Core, SQL Server
Authentication	JWT Bearer, WebAuthn / FIDO2 (biometric login), BCrypt password hashing
API Documentation	Swashbuckle (Swagger / OpenAPI)
Frontend	React 18, Vite, React Router
Data & Charts	Recharts, React Big Calendar
Reports / Export	jsPDF, ExcelJS, XLSX
Other Tools	Axios, date-fns, JWT Decode

Core Capabilities	
Access Control	Role & permission management, activity/audit logs
Academics	Programs, curriculum, courses, scheduling, examinations, results
Finance	Fee management, double-entry accounting, payroll, procurement
Attendance	Biometric device sync, staff & student attendance
Communication	Announcements, calendar, bulk email/SMS
Reporting	PDF & Excel export across every module

Other International Software Solutions

Beyond the University ERP, the same full-stack architecture and AI-assisted development workflow has been applied to build a range of production-style management systems, demonstrating versatility across industry domains.

Pharmacy Inventory / Stock Management
Medicine stock tracking, batch & expiry management, purchase/sales, and low-stock alerts.

Hospital Management System
Patient records, appointments, billing, and department/staff administration for healthcare facilities.

HR & Payroll Management System
Employee records, salary structures, payroll runs, tax/deductions, and payslip generation.

Appointment Booking System
Real-time slot booking, calendar management, and automated confirmation/reminder notifications.

Transport Management System
Fleet, route, and driver management with scheduling, tracking, and fare/billing records.

School / College Management System
Admissions, attendance, examinations, and result processing for K-12 and college institutions.

Employee Attendance & Leave Management
Biometric/manual attendance capture, leave requests, approval workflows, and reporting.

Hotel Booking & Management System
Room inventory, reservations, check-in/out, billing, and occupancy reporting.

01

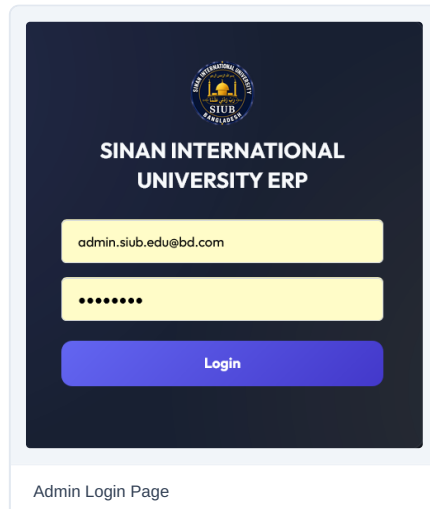

Secure Multi-Role Authentication

Every user type — Admin, Director, Accountant, Receptionist, Teacher, Student, and general User — signs in through its own dedicated, secured login gateway. Roles are verified at authentication time via JWT, and the interface, navigation, and permissions adapt immediately to the authenticated role.

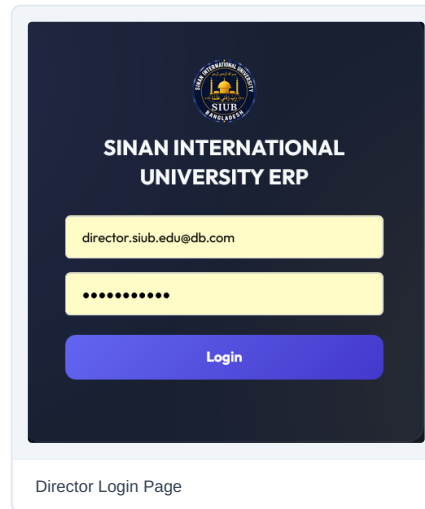

The Accountant Login Page features the SINAN INTERNATIONAL UNIVERSITY ERP logo at the top. Below the logo, the text "SINAN INTERNATIONAL UNIVERSITY ERP" is displayed. The login form consists of two yellow input fields: the first contains the email "accountant.siub.edu@bd.com" and the second contains masked characters ".....". A blue "Login" button is positioned at the bottom of the form.

Accountant Login Page

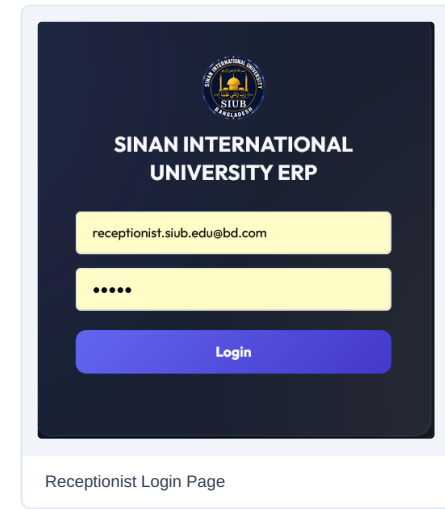

The Admin Login Page features the SINAN INTERNATIONAL UNIVERSITY ERP logo at the top. Below the logo, the text "SINAN INTERNATIONAL UNIVERSITY ERP" is displayed. The login form consists of two yellow input fields: the first contains the email "admin.siub.edu@bd.com" and the second contains masked characters ".....". A blue "Login" button is positioned at the bottom of the form.

Admin Login Page

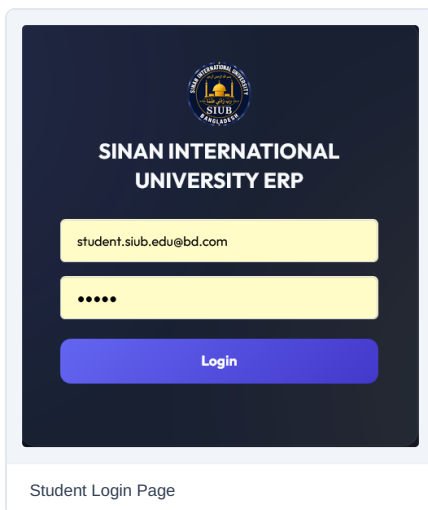

The Director Login Page features the SINAN INTERNATIONAL UNIVERSITY ERP logo at the top. Below the logo, the text "SINAN INTERNATIONAL UNIVERSITY ERP" is displayed. The login form consists of two yellow input fields: the first contains the email "director.siub.edu@db.com" and the second contains masked characters ".....". A blue "Login" button is positioned at the bottom of the form.

Director Login Page

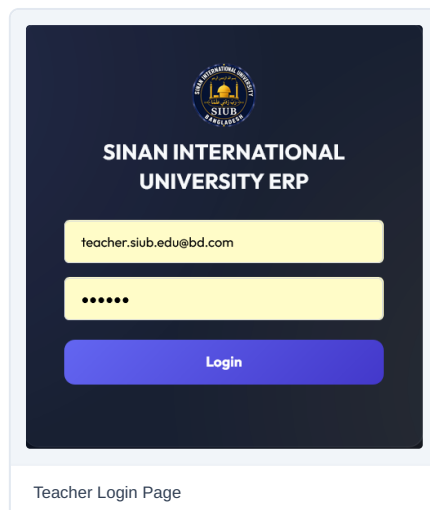

The Receptionist Login Page features the SINAN INTERNATIONAL UNIVERSITY ERP logo at the top. Below the logo, the text "SINAN INTERNATIONAL UNIVERSITY ERP" is displayed. The login form consists of two yellow input fields: the first contains the email "receptionist.siub.edu@bd.com" and the second contains masked characters ".....". A blue "Login" button is positioned at the bottom of the form.

Receptionist Login Page

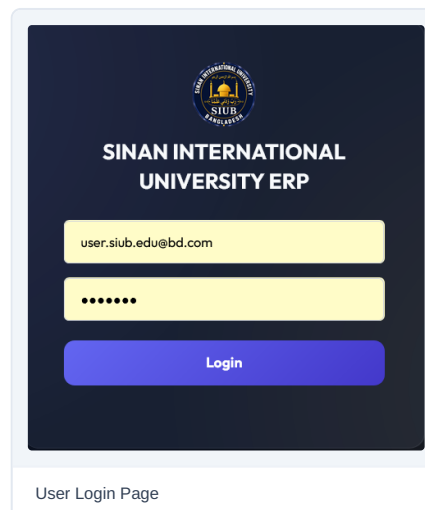

The Student Login Page features the SINAN INTERNATIONAL UNIVERSITY ERP logo at the top. Below the logo, the text "SINAN INTERNATIONAL UNIVERSITY ERP" is displayed. The login form consists of two yellow input fields: the first contains the email "student.siub.edu@bd.com" and the second contains masked characters ".....". A blue "Login" button is positioned at the bottom of the form.

Student Login Page

The Teacher Login Page features the SINAN INTERNATIONAL UNIVERSITY ERP logo at the top. Below the logo, the text "SINAN INTERNATIONAL UNIVERSITY ERP" is displayed. The login form consists of two yellow input fields: the first contains the email "teacher.siub.edu@bd.com" and the second contains masked characters ".....". A blue "Login" button is positioned at the bottom of the form.

Teacher Login Page

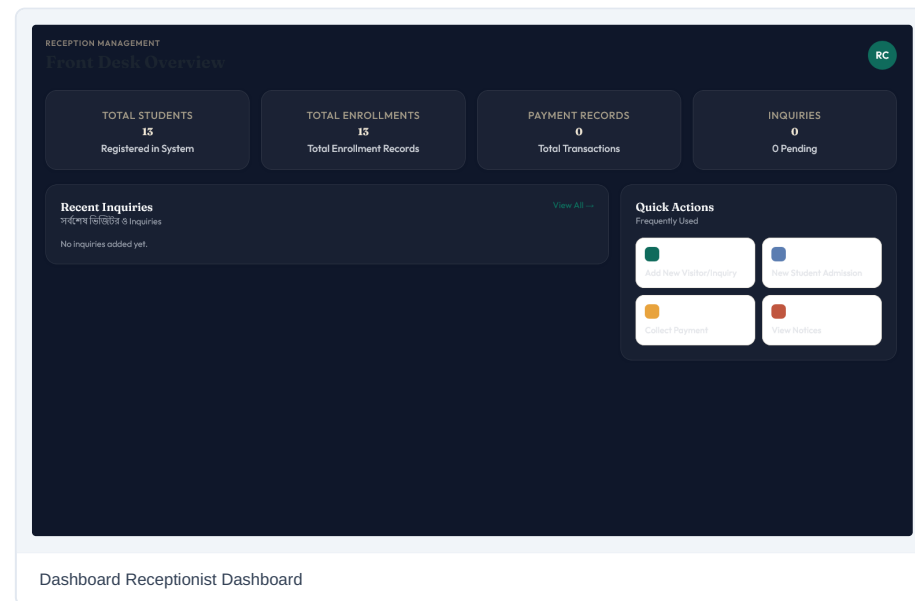

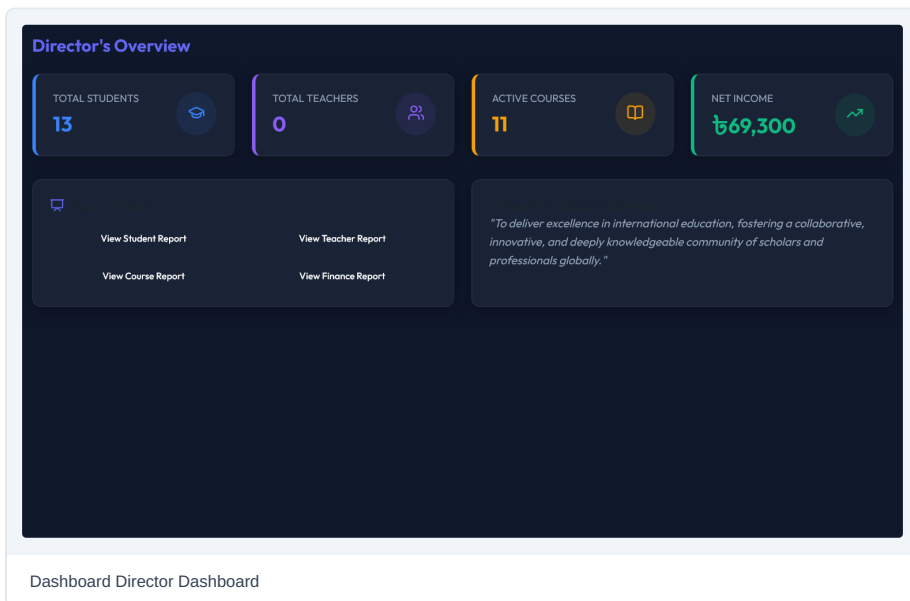

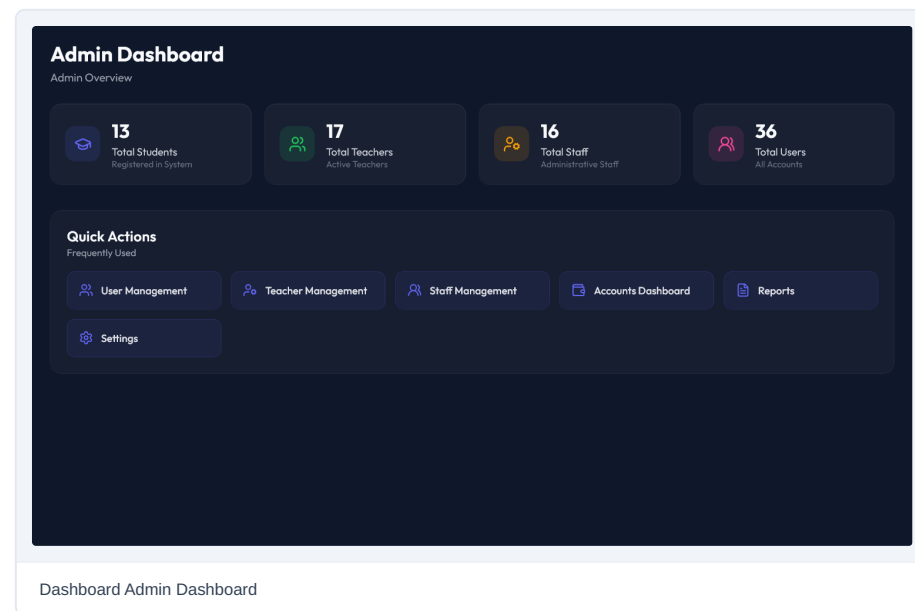

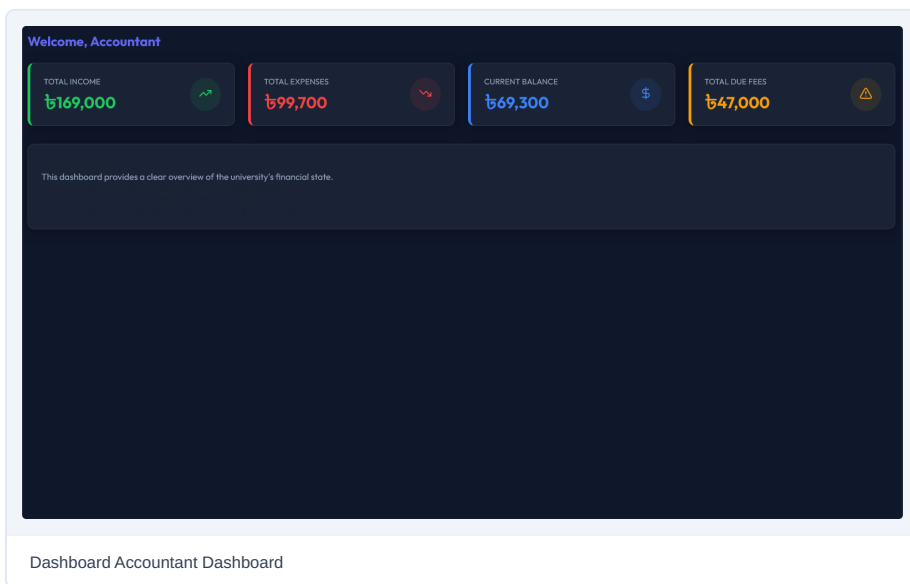

The User Login Page features the SINAN INTERNATIONAL UNIVERSITY ERP logo at the top. Below the logo, the text "SINAN INTERNATIONAL UNIVERSITY ERP" is displayed. The login form consists of two yellow input fields: the first contains the email "user.siub.edu@bd.com" and the second contains masked characters ".....". A blue "Login" button is positioned at the bottom of the form.

User Login Page

02

Role-Based Dashboards

Each role lands on a purpose-built dashboard summarising the KPIs, shortcuts, and alerts relevant to that role — from institution-wide financial and enrollment metrics for Admins and Directors to personal schedules and results for Students and Teachers.

The screenshot displays a web application for managing student ID cards. The top navigation bar includes a logo, the user's name 'Siddha Lakshmi Sridhar', and roles 'Admin' and 'Teacher'. The main content area is a grid of 19 student ID cards. Each card shows a student's profile picture, name, ID number, and a list of subjects and scores. The cards are arranged in two rows: the first row contains 15 cards, and the second row contains 4 cards. The interface is designed with a dark blue header and a light blue grid background.

STUDENT	TYPE	SUBJECT	DESCRIPTION	DATE	ACTION
Emily Chen (J0123)	Course Change	Request for Course Change - Dropping PHY-401 and Adding PHY-402	I am a student of the Department of Physics and I am writing to formally request a course change for the current semester. I would like to drop the course PHY-401 (Quantum Mechanics I) and add PHY-402 (Nuclear and Particle Physics) in its place. The reason for this change is a scheduling conflict with another required course that I must complete this semester. PHY-402 fits my timetable better and also aligns with my academic and research interests in nuclear physics. I have discussed this matter with my academic advisor and received informal approval. I kindly request the department to officially process this course change at the earliest convenience. Thank you for your understanding and support.	8/26/2026	Approve Reject
Samir Malik Ahmed (STU-2026-789)	Transcript	Request for Official Academic Transcript - Department of Physics	I am a student of the Department of Physics and I am writing to formally request an official academic transcript of my undergraduate studies. I require this transcript for the purpose of applying to a postgraduate program in Physics at an international university. I kindly request the university to provide an official sealed and signed transcript of your earliest convenience. Please let me know if any additional information or documentation is required from my end. Thank you for your time and assistance.	8/26/2026	Approve Reject
Fahim Mustafa (STU-2026-345)	ID Card	Request for Student ID Card Renewal - Department of Chemistry	I am a student of the Department of Chemistry. I am writing to formally request the renewal of my student ID card. Unfortunately, my original ID card was lost/damaged and I am currently unable to access university facilities and services without it. I sincerely apologize for the inconvenience caused. I kindly request the university authority to issue me a duplicate ID card as soon as possible so that I can continue my academic activities without further disruption. I am ready to submit any required documents or pay the applicable fee for the replacement process. Thank you for your kind assistance.	8/26/2026	Approve Reject
Olivia Hassan (STU-2026-567)	Certificate	Request for Course Completion Certificate - BSc in Physics	I am a currently enrolled student of the Department of Physics. I am writing to formally request a transfer to the Department of Applied Physics for the upcoming semester. My primary reason for this transfer is my strong academic interest in practical and applied aspects of physics, including electronics, instrumentation, and computational methods. I believe the Applied Physics program aligns more closely with my career goals and research interests. I have maintained a satisfactory academic record and am confident that I will be able to adapt to the new department's curriculum without difficulty. I kindly request the concerned authority to consider my application and approve the transfer at the earliest. Thank you for your time and consideration.	8/26/2026	Approve Reject
Zayed Usaid Ahmed (J0123)	Certificate	Request for Course Completion Certificate - BSc in Computer Science & Engineering	I am a student of the Department of Physics. I have successfully completed all the required courses and credit hours for my Bachelor of Science degree in Physics. I am hereby requesting an official Course Completion Certificate from the university authority. This certificate is required for my graduate school application at a foreign university. I would be highly grateful if the concerned authority could issue the certificate at the earliest possible time. Thank you for your kind consideration.	8/26/2026	Approve Reject

Let's Build Something Reliable Together

This showcase reflects one of several large-scale, production-style systems I have designed and built independently — spanning ERP, healthcare, retail, hospitality, and workforce-management domains — using a consistent, modern .NET + React stack with clean architecture, role-based security, and export-ready reporting.

Available for freelance contracts and full-time opportunities in full-stack (.NET / React) development.
